

THE ELIASON® PE-500 / PG-500

Durable. Attractive. Economical.

THE ELIASON PE-500 / PG-500 HDPE IMPACT TRAFFIC DOOR

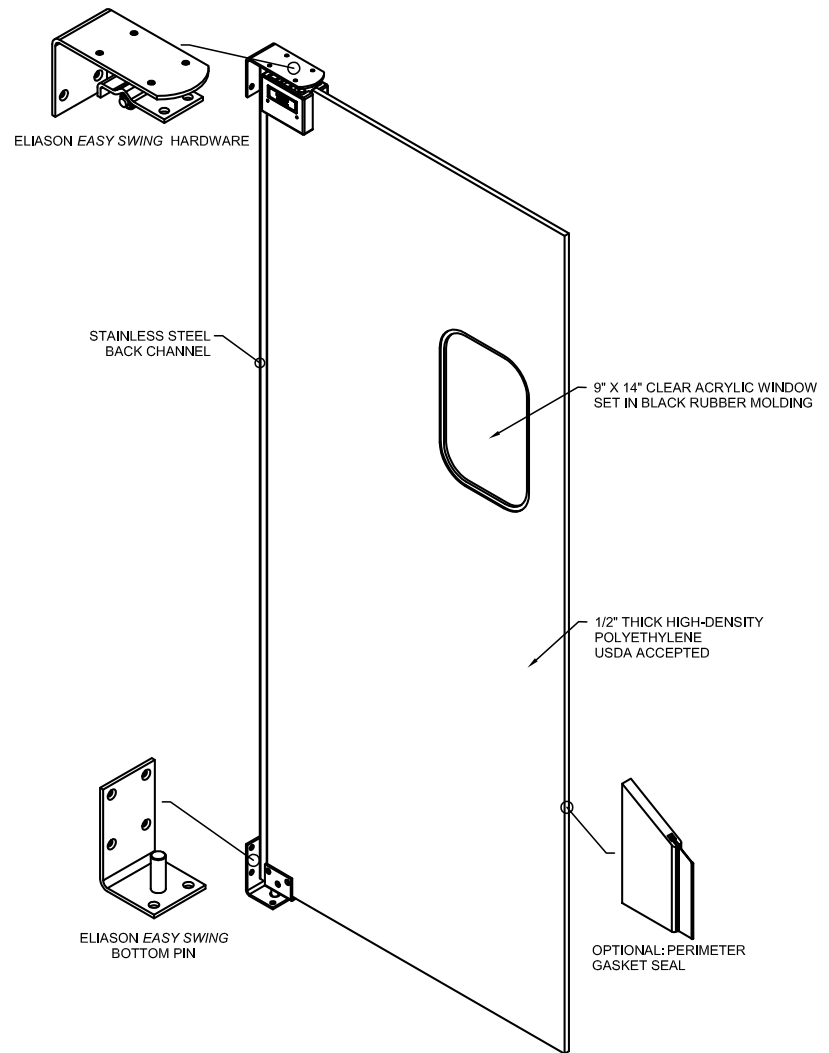

This rugged impact traffic door is the latest addition to Eliason's line of high quality, cost-effective door solutions. The PE-500 is designed for use in a wide variety of applications, including grocery, retail, commercial and light industrial. The ½" thick door panels are constructed of USDA accepted stress-relieved, high-density polyethylene with a stainless steel back channel for added strength and rigidity. The scratch-resistant acrylic vision panels are 9" x 14" set in black rubber molding. These attractive, durable door panels are textured on both sides and operate on the *Easy Swing*® Hinge System pioneered by Eliason and still the smoothest-operating and most reliable hinge system on the market today. The PG-500 comes standard with perimeter gasketing.

Eliason PE-500/PG-500 Traffic Door

product features
& specifications

Durable. Attractive. Economical.

- This rugged impact traffic door is the latest addition to Eliason's line of high quality, cost-effective door solutions. The PE-500 is designed for use in a wide variety of applications, including grocery, retail, commercial and light industrial.
- These ½" thick door panels are constructed of USDA accepted, stress-relieved, high-density polyethylene with a stainless steel back channel for added strength and rigidity. The scratch-resistant acrylic vision panels are 9" x 14" set in black rubber molding.
- These attractive, durable door panels are textured on both sides and operate on the *Easy Swing*[®] Hinge System pioneered by Eliason more than thirty years ago and still the smoothest-operating and most reliable hinge system on the market today.
- You can count on the PE-500 to provide years of trouble-free service. Like all Eliason double-acting traffic doors, the PE-500 is backed by our industry-best Five Year Warranty against defects in materials and workmanship.

Specifications
